

# FPE Automation to Open State-of-the-art Training and Technology Center

**Elk Grove Village, IL**

FPE Automation will open a cutting-edge training and technology center in Elk Grove Village, Illinois. The facility will include six training modules featuring collaborative 6-axis robot (also called cobots) training stations from Universal Robots A/S ([www.universal-robots.com](http://www.universal-robots.com)), 10 Cognex ([www.cognex.com](http://www.cognex.com)) industrial machine vision system training modules, an automation test laboratory and the latest in pneumatic technology.

FPE Automation, established in 1963, is a local, family-owned company. They are a full-service, award-winning, stocking distributor of premier components for industry. FPE Automation's corporate headquarters is two doors down from the new, proposed facility.

FPE Automation currently offers regularly scheduled advanced product training courses at its corporate headquarters. The training courses will be moved to the new facility in the second quarter of 2019. Current training schedules will remain the same. The training and technology center will also be used for testing by FPE Automation's automation engineers, customers and suppliers.
